

Supp Regs_Aust. Superkart Champs Round 1

The Supplementary Regulations for ASC Rnd 1 at Mallala have been posted by Shannons, so please login and download them for the event information. Also there is a preliminary event Schedule and a Logistics document, however keep in mind that these two latter docs are subject to change if necessary.

With your entry paperwork, it would assist administration if you could indicate your garaging requirements. No garaging is available from the circuit directly at this event, Shannons allocate them to SKA and we in turn deal with our entrants. Closer to the event we will advise availability and cost for garages.

We may also negotiate a small number of paddock places for gazebo/tents pitting adjacent to the area where we will have allocated garages.

SKA's preference is to enhance our presence and spectator appeal at the event by having all competitors garaged together. This also assists with the at-the-event organization.

Again please forward your entries asap as the time to entry closing date is fairly short as now notified by Shannons for SKA to have all entries finalized by May 18th, so this means our competitors will effectively need to have them off to us MAY 15TH.
